

MOBILE CHECK SCANNING NOW AVAILABLE!

Faster Check Processing from the Field

Nearly half of business payments are made by check, and WorkWave Payments Mobile Check Scanning gets them processed accurately and you get paid faster.

- Start processing checks immediately from the field.
- Automate entry and reduce cost, risk, and errors.
- Digitize checks securely and eliminate delays due to loss or damage.

WHY IS WORKWAVE MOBILE CHECK SCANNING INTEGRATION IMPORTANT?

Checks that are not being processed through your WorkWave software create unnecessary delays in getting paid, especially if they are lost or damaged. WorkWave reconciles and reports on all payment processing transactions so you don't have to.

- Eliminate check transportation to the office or bank.
- Accelerate processing time.
- Improve your cash flow.
