WORKWAVE®
PestPac

PestPac Mobile Multi-Unit

Effectively service and report on commercial or residential multi-unit buildings such as apartments, condominiums, college dormitories and more from one single application. Automate follow-up services and easily keep track of multiple areas and devices in each unit. Technicians can capture per-unit signatures, as well as log inspection activity and print service reports per unit or summary reports for an entire building.

With Multi-Unit
YOUR TECHNICIANS CAN:

- O Streamline the management of areas, devices and alerts

- O Define and associate buildings and units in bulk

- O Record new entries and sightings on a per unit basis

- O Quickly locate devices with detailed floor plan schematics

- O Capture signatures per unit

- O Print or email reports per unit

- O Identify which buildings / units were inspected, signed off on and which were skipped

- O Compile combined reports for all units
