

Is Your Business as Operationally Efficient as It Can Be?

Operational efficiency and quality service are key factors in sustaining success for your business. At WorkWave, our goal is to help customers such as yourself reach their full potential by offering an easy to use, powerful software solution. The Route Manager 360 solution comes packed with features such as Mobile GPS tracking, Proof of Delivery, Barcode Scanning and Customer Notifications. It's a must-have for any business looking for full control of their last mile!

Here's what you can expect with Route Manager 360:

Driver Mobile App

- Real-Time Routes
- Delivery Order Status (Completed or Rescheduled)
- Mobile Barcode Scanning (no additional fee)
- Proof of Delivery (Signature, Photo, Notes and Voice Recording)

Driver Mobile GPS Tracking

- Driver Breadcrumb Visibility
- Mobile GPS Tracking

Customer Notification Capability

- Communicate Delivery Status (Service Day, Almost There and Status Update)
- Provide Live ETA Tracking Link
- Email Messaging Available
- One-Way SMS Text Messaging Available (additional fees apply)

\$69 per month, per license

Here's what one of our customers had to say about our WorkWave Route Manager 360

“**With WorkWave Route Manager, we can track drivers, locations and time windows from both desktop and the mobile app.** Our drivers use the mobile app for routing and scheduling, which notifies the dispatchers for proof of delivery, ensuring that our delivery schedules are being met and helping us to track service times. Bottom line, I would recommend Route Manager because of the **EASE OF USE, SAVING US TIME, MONEY AND RESOURCES.**”

- Will McCauley, Transportation Supervisor, DHL Westerville OH
